NEW TREATMENT - 2018 - DERMAPLANING

DERMAPLANING is a painless procedure where dead skin cells are manually scraped away, providing immediate results. A highly effective exfoliating treatment that removes two to three weeks' worth of dead skin cells.

Dermaplaning is a complete facial treatment that tricks the skin into thinking it has an injury and so starts to heal itself, thus resulting in a healthier, brighter and plumped skin.

Benefits

- Reduces appearance of acne scars, hyperpigmentation and surface wrinkling.
- Removes the fluffy vellus hair on the face and neck.
- Assists in the reduction of blocked pores and milia.
- Reduces the appearance of open pores.
- Suits all skins, even super sensitive types.
- No down time.

*** INTRODUCTORY OFFER IN DECEMBER & JANUARY. £45.00 * £55.00**
